

Mediq:

Your Trusted Partner for Procedure Packs

MEDIQ

at the heart of healthcare

About Mediq Healthcare

At Mediq, we support healthcare professionals with high-quality, practical solutions designed to enhance clinical workflows and patient care.

Through our trusted brands, 365 Healthcare and Premier, we offer a range of procedure packs developed to meet the needs of both community and acute care settings.

Our packs are configured to promote consistency, efficiency, and infection control, helping clinicians deliver care with confidence.

Clinical Efficiency

- Packs are configured to include the required components in the correct sequence for each procedure.
- Supplied in a single sterile unit to support aseptic technique and reduce preparation time.
- Helps streamline clinical workflows and maintain procedural consistency.
- Consolidated packaging supports batch traceability and simplifies stock control.

Cost and Resource Management

- Includes only essential components, helping to reduce unnecessary product use and associated waste.
- Supports efficient stock utilisation and minimises storage requirements.
- Facilitates cost transparency by clearly defining the contents and intended use of each pack.
- Excludes variable items (e.g. dressings, cannulas) to maintain consistency across procedures.
- Single-pouch packaging reduces material use and simplifies disposal.

Supply Chain and Administrative Efficiency

- Pre-configured packs reduce the time required for preparation and assembly.
- May support procurement and inventory teams by simplifying ordering and stock monitoring.
- Consolidation of components can reduce the number of suppliers, deliveries, and associated administrative tasks.

Core Procedure Pack Ranges
