ONE STEP.
ONE SOLUTION.

FOR DAMP DUSTING & CLEANING

Why Choose Sani-Cloth® Detergent?

Sani-Cloth® Detergent wipes are impregnated with a low-level detergent for the cleaning & damp dusting of all general surfaces and equipment, including beds and mattresses. They contain a clean, fresh fragrance with odour-neutralising properties, utilising a low-smear, biodegradable formulation.

Ideal for:

+ Routine cleaning procedures, including damp dusting
+ Removal of quaternary-ammonium build-up
+ Prior to disinfecting in a two-step cleaning and disinfection process

Skin Integrity
Formulated without PHMB, a known skin sensitiser, to minimise the risk of allergic reactions.

Supports Gloves Off
Designed for safe, simple cleaning without the need for gloves, Sani-Cloth® Detergent supports everyday surface hygiene with a gentle, alcohol-free formulation.

Maximum Flexibility
Suitable for use across a wide range of clinical environments, with formats available in soft packs, canisters and buckets.

Sani-Cloth® Detergent is compatible with our Point of Use dispensers for improved compliance!
